## BUILDING DEPARTMENT

Homeowners who have been here for some time are making improvements; new buyers start remodeling within weeks of closing on their unit. This ongoing trend has created the situation that even though it's summer, the Building Department has processed a rising number of permits this past quarter.

As concrete restoration is ongoing at Dune Deck, The Barclay, and The Tuscany, there is fugitive dust when it is very windy. For the most part, the contractors have been diligent in keeping the dust abated. Rather than calling us if a resident has an associated complaint or concern, please call the Palm Beach County Health Department at 561837 5956. The County will promptly initiate an investigation and e-mail a report of the investigation to any resident requesting those findings.

As always, if you have any questions about contractors, permits, or building requirements, please contact the Building Department at 5615888889.

# POLICE 89D5FHA9BH

Since the last Bewsletter, our Town has undergone its annual transformation when our seasonal residents leave Florida for their homes up north and out west. Since we have a smaller population during these summer months, we ask our year-round residents to assist us by occasionally checking for any open and/or broken windows or doors and paying attention to any unfamiliar people on your buildings' property. If you see something amiss in either case, call us to conduct any investigation required. DO NOT confront anyone that you feel is acting suspiciously. Please call our Police Department and let us do our job. Keeping our residents safe is the paramount mission of the South Palm Beach Police Department.

Another thing that summer always brings is the Hurricane Season. I ask that you adhere to all storm warnings and follow any evacuation notices that may be put into effect. Depending on the strength and severity of a storm, the Fire and Police Department might be ordered off the barrier island until the storm passes. Please take all warnings and advisories seriously.

Have a safe and enjoyable summer, taking advantage of all that South Palm Beach and south Florida have to offer during these months.

Special kudos go to Dc`JWY` Officer David Hul for his outstanding, DQGdedicated police work. On June 23<sup>rd</sup>z` the Town D0UGHG him with a Certificate IRU9 I WY`YbWY`Dc`JWY` 8 i hm``CZZ]WYf` < i `` \ Ug`VYYb` Ub`]b`jU` i UV`Y`UXX]h]cb`hc`h \ Y` 8YdUf`h`a`Ybh`g]bWY` \ ]g`Uff]jU``CZZ]WYf` < i ``YbZcfWYg`hfUZZ]W` j]c`Uh]cbg`k \ ]W \ X]fYWh`m`] a`dfc`jYg`h \ Y`gUZYhm` cz`c`i`f`Hckb`fYg]XYbhg`UbX`dYXYghf]Ubg``

Those traveling on our multi-use pathway are reminded that while "Share the Road" signs on highways are primarily informing *drivers* that it is their responsibility to give cyclists room to drive safely on the road, our CYCLISTS signs are notifying *cyclists* of their responsibility.

When a cyclist travels on our walkway, the posted ordinance requires that an audible sound be made before passing a pedestrian. Given that our &mmunity has a predominantly senior population with an attendant fairly high number of people with some degree of hearing loss, common sense would dictate a fairly loud (short) sound as well as the practice of passing on the left as is the custom on the roads.
