2026 KING TIDES

August 28, 2026

As you are aware, our Town and surrounding areas are again experiencing severe flooding and accumulation of standing water. This occurs due to multiple factors, most significantly though are heavy rainfall accumulations in the immediate area and the arrival of the seasonal cycle of King Tides in the adjacent waterways. Most King Tide impacts are felt right along the coast and in very low-lying areas.

Please remind residents to avoid flood waters and move their cars to higher ground.

Based on the National Oceanic and Atmospheric Administration's Tide predictions, King Tides will occur on the following dates during the Fall & Winter of 2026:

- **September 8 - 15 (New Moon)**
- **September 24 - October 15 (Full Moon & New Moon)**
- **October 22 - November 12 (Full Moon & New Moon)**
- **October 17 - 23 (New Moon)**
- **November 22 - 29 (Full Moon)**
- **December 22 - 27 (Full Moon)**

Please take the necessary steps to protect your residents and property. Thank you.
